

Hank Green, Luck Of My Life

I've come across a lot of \$10 bills in my time
In swimming pools and taxi seats in ATMs and on the beach
Finding free money is something I can do
But when I think about my luck I only think of you

Sure, when I go down town I find a perfect parking spot
OK I guessed the right answers on my tests a lot
And yeah, when I fell out of that cypress tree I didn't die
But you, my girl are the luck of my life.
Yeah you, my girl are the luck of my life

Once, we met this guy on the way to a punk rock show
And we helped him with some boxes even though we didn't know
That he was with the band... and he got us in free
But the only reason I felt lucky is you were there with me

Sure, that light turned green before I hit the brake
OK, no one notices half of the mistakes I make
And yeah, when I ate that rat poison I didn't die
But you, my girl are the luck, of my life
Yeah you, my girl, are the luck of my life

Yeah 10,000 people watch me online each week
OK no one's ever had a cooler job than me
But one day one girl said that she'd be my life
And that day was the luckiest of my life

Yeah you my girl are the luck of my life.
