

Hank Locklin, Time Nor Tide

Time nor tide will never change its way love like mine goes on day after day
True as stars that twinkle in the blue time nor tide won't change my love for you
Though the changing years may gray your golden hair
In my eyes you'll always be as sweet and fair
Like like ours will never be denied makes no difference what the time or tide
[fiddle - steel]
Time nor tide may bring us grieve and pain but there's sunshine after every rain
Trust your love to always see you through
Time nor tide won't change my love for you
Hand in hand we'll face the future come what may
Side by side we'll find the rainbows in some day
In our hearts a love song will abide makes no difference what the time or tide
