

# Hank Snow, Bury Me Deep

Dig down deep where the ground is cold  
(Dark and cold and all alone)

Tired of life all alone and blue  
Happiness I never knew  
In this cold world there's nothing for me  
Now won't you hear my only plea

And bury me deep where the sun doesn't shine  
Because sunshine I've never known  
Dig down deep where the ground is cold  
Dark and cold and all alone

[ vibes ]

You were my love only love I knew  
And tonight I find I can't have you  
Trouble and tears are all that I see  
Now you are gone please hear my plea

(Bury me deep where the sun doesn't shine  
Because sunshine I've never known)  
Dig down deep where the ground is cold  
Dark and cold and all alone
