

# Hank Snow, I Can't Control My Heart

Though I should say goodbye to you  
I can't control my heart  
It won't obey my heart must stay with you  
You brought me a tear with each kiss you gave to me  
You taught me how painful love can be

It makes no difference what you do  
I can't control my heart  
And though you stray my heart must stay with you  
For you alone it's beating I love you it's repeating  
With all my soul I can't control my heart

Break (fiddle - guitar)

You brought me a tear with each kiss you gave to me  
You taught me how painful love can be

It makes no difference what you do  
I can't control my heart  
And though you stray my heart must stay with you  
For you alone it's beating I love you it's repeating  
With all my soul I can't control my heart
