

Hank Snow, I Wished Upon My Little Golden Hors

Some folks like to wish upon a little silver star
Others wish upon that big old moon
If you want to make a wish and have that wish come true
Let me tell you, I should know because one night in June

I made a wish upon my little golden horseshoe
And, gee, I wished that I would fall in love
I told the little stars that I was so blue
As they smiled down on me from up above

And, what do ya know, that wish that I was wishin'
Came just as true, as true as it could be
I wished and kissed my little golden horseshoe
Then lady luck found you and you kissed me

I made a wish upon my little golden horseshoe
And, gee, I wished that I would fall in love
I told the little stars that I was so blue
As they smiled down on me from up above

And, what do ya know, that wish that I was wishin'
Came just as true, as true as it could be
I wished and kissed my little golden horseshoe
Then lady luck found you and you kissed me
