

Hank Snow, It Takes Too Long

I don't wanna ever fall in love again
I don't wanna worry if I'll hurt or hurt somebody
You can't be happy when love comes to an end then you're alone
I won't try to change again for a woman's sake
Cause I won't be around one who has rules for me to follow
For when a love falls through it hurts and you will never be the same

And it takes too long to heal a broken heart
It hurts too bad when love gets pulled apart
From now on I just won't let it start
Cause it takes too long to heal a broken heart
[guitar]
It don't really matter why when love is gone
If cheatin' is to blame or it died from natural causes
The end is still the same it always causes pain at least to one
And it takes too long to heal...
Yes it takes too long to heal...
Yes it takes too long to heal a broken heart
