

Hank Snow, Let Me Go, Lover

Let me go, let me go, let me go, woman
Let me be, set me free, from your spell
You made me weep, cut me deep, I can't sleep, woman
I was cursed, from the first, day I fell

(Chorus)

You don't want me, but you want me, to go on wanting you
How I pray that, you will say that, we're thru

Please turn me loose, what's the use, let me go, woman
Let me go, let me go, let me go

(Repeat Chorus)
