

Hank Snow, Million And One

How many teardrops have I cried over you
A million and one tears a million and two
How many nighttimes have my arms reached for you
A million and one times a million and two

I loved you my darling and I thought you loved me only me
But you were just foolin' and the fool you were foolin' was me
How many sweet dreams will never come true
A million and one dreams a million and two
[guitars]
I loved you my darling...
