

Hank Snow, My Religion's Not Old Fashioned (But It's Real Genuine)

There is but one real religion that redeems a sinner's soul
It's as timeless as the ages and it never will grow old
My Lord Jesus, he's the power. I am the way, the truth, the life
and the way has never changed since he spoke the words out loud.

My religion's not old fashioned but it's real genuine, two and two make four to-day as it did in my Lord's time.
Modern days won't make a difference that you can't follow through the time,
My religion's not old fashioned but it's real genuine.

(PIANO)

In this world of wild confusion, we are often led astray.
When we hear the word 'old fashioned' as men speak of God to-day.
My Lord doesn't deal in fashion, He's more timeless than the seas
and His words still hold the power as they did in Galilee.

My religion's not old fashioned but it's real genuine
two and two make four to-day as it did in my Lord's time.
Modern days won't make a difference you can't follow through the time.
My religion's not old fashioned but it's real genuine.

(GUITAR)

Some are prone to yank the bible and usurp the words of Christ.
They admit He came here one time but He'll never make it twice.
Do not tempt the bible's prophecies as such men rue their life
There is darkness in their future but there's life in Jesus Christ.

My religion's not old fashioned but it's real genuine
Two and two make four to-day as it did in my Lord's time
Modern days won't make a difference you can't follow through the time
My religion's not old fashioned but it's real genuine.
