Hank Snow, Scale To Measure Love

If I had a scale to measure love like a clock can measure time And we put our love upon that scale would your's weigh as much as mine

Of late is seems your thoughts are far away I doubt if you hear half the things I say I'd be hurt if I knew just who you were thinkin' of I'm so glad there's no scale to measure love

[fiddle - guitar]

Your kisses always thrilled me at the start But now I wonder are they from your heart I'd be sure if it's me that you were thinkin' of If I could find a scale to measure love
