

Hank Thompson, Baby I Need Lovin'

Baby I need lovin' in any kind of way
I need a warm sweet angel to let me have my way
Baby I need lovin' that's all that's on my mind
Tender arms above me to squeeze me all the time

Well your eyes are an indication then you gently squeeze my hand
It stops my circulation honey don't you understand
Baby I need lovin' there's just one thing to do
Get myself some lovin' from a pretty little girl like you
[steel - piano - fiddle]
Baby I need lovin' I know you'd fill the bill
My heart would beat with laughter you'd cure every ache and ill
Baby I'd like to take you in my arms right now
And gave you a lots of lovin' and I really know how

It would be a great sensational to pull you close to me
And feel your respiration as I hold you tenderly
Baby I need lovin' there's just one thing to do
Baby I need lovin' from a pretty little girl from a pretty little girl
From a pretty little girl like you
