(Make room in your heart for a dream)

Just make room in your heart for a memory  
Then just once in a while will you think of me  
Though you're gone to another who loves you too  
But won't you remember what I meant to you  
In a dream maybe sometime I might drop in  
And we'll talk about things that might have been  
Now and then just a thought of your used-to-be  
Please make room in your heart for a memory  
n a dream maybe sometime...
