

Hank Williams Jr., Come And Go Blues

People say you're no good I couldn't cut to loose babe if I could
Well I seen this thing down on the ground
Baby I'm too far gone to start turnin' around
Well if only you make up your mind
Take me where you go or just leave me here to pine
Lord you got those come and go blues woman you got those come and go blues
Got me feeling like a fool just like a fool
Round and round round to go
Don't ask me why I stay here cause I do know
Maybe I'm a fool to care baby without your sweet love I would be nowhere
Here I'll stay lost in your will until that day I find someone else
But I don't know just when that will be
I don't know I can't say and I can't see
Lord you got those come and go blues woman you got those come and go blues
Got me feeling like a fool just like a fool
