

Hank Williams Jr., Going Steady With The Blues

Don't think that I've been lonely because you left me and broke my heart in two
I've got company I'm going steady with the blues
Yes every evening while you are dancing and you're romancing oh well I'm busy too
I've got company I'm going steady with the blues
Though I don't have you in my embrace found a lotta things to take your place
I've got my teardrops I've got my heartaches
So don't you worry I won't be needin' you
I've got company I'm going steady with the blues
[trumpet]
Though I don't have you...
I've got company I'm going steady with the blues
Don't you worry bout me going steady with the blues
