

Hank Williams Jr., I Know It's Not Been Easy Lov

I know how much you worry when I stay out late at night
But you always smile and kiss me just like everything's all right
With cruel words I've made you cry and hurt you constantly
And I know it's not been easy loving me
Cause I've shamed you and I've blamed you but you never let it change you
And through it all you've never once been untrue
And I'm glad you're my lady and thanks for staying with me
Cause I know it's not been easy loving me
[steel]
Through all your lonely heartaches you love me just the same
And looking back I see how wrong I was and I'm ashamed
But like an angel you forgave a man too blind to see
And I know it's not been easy loving me yes I know it's not been easy loving me
