

# Hank Williams Jr., I Went To All That Trouble For

He went to all that trouble for nothin' I hear them say  
It's too bad that things turned out for him that way  
You took my love and turned around and made me blue  
I went to all that trouble for nothin' for you  
I turned my back on the girl I thought that she was mine  
I gave up my friends and now it seems I'm givin' up my mind  
I did everything you wanted me to do I went to all that trouble for nothin' for you  
I hear the whistle blow the train will soon be here  
And just for it takes me I've got more cause to care  
To face my friends is something I just can't do  
I went to all that trouble for nothin' for you  
I went to all that trouble for nothin' for you
