

# Hank Williams Jr., Loser

Play that song again about the loser the same one that's been playing all night long  
It's good to know I'm not the only loser and all this time I thought I was alone  
She wanted to walk out and I'm the fool that let her  
It's so good to hear the part where I'll soon be gettin' better  
So play that song again about the loser  
The same one that's been playing all night long  
It's good to know I'm not the only loser and all this time I thought I've hurt alone  
So play it just for me then I'll go home
