

Hank Williams Jr., Mr.Weatherman

Mr.Weatherman

What is your forecast?

I need a major change

I can't stand no more rain

Everything's been going wrong

please tell me it's something in the ozone

or is the atmospheric pressure just too strong?

I can't ride out one more storm

Because I've had too many highs and too many lows

too many storms and tornadoes

I need some blue skies and sunshine

I need a good forecast tonight

(solo)

'cause I've had too many highs and too many lows

too many storms and tornadoes

I need some blue skies and sunshine

I need a good forecast tonight

Hope your weekend forecast is right

hope you got me on your weather eyes
