## Hank Williams Jr., Old Before My Time

You'd like to have me take you dancin' every other night It's gotten so my eyes're runner custom to daylight My bills're runnin' up and I am runnin' down The way I'm goin' soon I'll be sent the underground You're gonna make me old before my time I don't know how you go on like you do But I don't mind growin' old before my time just as long as I'll grow old with you You're gonna make me old... You're gonna make me old...
