

Hank Williams Jr., The Pressure Is On

I got someone at home,don't know whats going on,
thinks I love her and her alone and the pressure is on.

I got a new love you see.She does new things to me.
We sneak our love you's on the phone and the pressure is on

and it puts pressure on a man if he ever lets his heart call his hand.
He ain't no rolling stone,but the pressure is on.

Feel like your ten thousand feet down under the sea

and its crushing all your bones and the pressure is on.

The trains I ride in my dreams
run on the pressure of the steam.

Lord I could pull one a mile long cause the pressure is on.

Lord I could pull one a mile long cause the pressure is on,
the pressure is on, the pressure at home.
