

Hank Williams Jr., Too Soon To Think Of Love Again

Love without devotion is just loneliness in motion just the way to pass away some time
A fire without an ember leaves nothing to remember
And it sure won't burn her mem'ry from my mind
Cause it's much too soon for me to think of love again
For my heart's still living in another time
I'm still walking through the pieces of a world that's fallin' in
And it's much too soon to think of love again

[piano]

They say that time erases fills all the empty places
And heals the wounds inside a broken mind
But my heart's too full of sorrow to even think about tomorrow
Cause I've looked upon forever my last time
So it's much too soon...
Yes it's much too soon to think of love again
