

Hank Williams Jr., Women I've Never Had

I like to play good music and have good time
I love to hear old trains rolling down the line
I am into happy and I don't like sad and I like to have women I never had
I take a little smoke and a lot of wine I get high on all old friends of mine
I like the sweet young things and Old Grandad and I like to have women I've never had
[dixieland]
I like to ride my horses and shoot my gun you know a cowboy's work is just never done
I am in to bacics and I don't like sad and I like to have women I never had
Hey I don't mean to ever do nobody no wrong
I was just born the son of a singing song
I do things to make people mad and I like women I never had
