

# Hanna Pakarinen, Ejected

I was the last to know that I'm out  
You left me without warning  
You were so fast walking around  
I couldn't escape from falling

Now torn apart with a broken heart  
Don't know what to believe in

I press rewind and find  
I'm ejected  
This thing called love doesn't play  
any more  
Erased out of my mind  
I'm ejected  
Please stop and give me what we  
had before

I gave you my life; you took it all  
Foolishly freewheeling  
You hit the knife and made me fall  
You should've told me you're leaving

Now torn apart, with a broken heart  
I'm left alone and dying

I press rewind and find  
I'm ejected  
This thing called love doesn't play  
any more  
Erased out of my mind  
I'm ejected  
Please stop and give me what we  
had before

Don't wanna be ejected  
Don't wanna be ejected....

I press rewind and I find I'm ejected...
