

Hanna Pakarinen, Ejected

I was the last to know that I'm out
You left me without warning
You were so fast walking around
I couldn't escape from falling

Now torn apart with a broken heart
Don't know what to believe in

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected
Please stop and give me what we
had before

I gave you my life; you took it all
Foolishly freewheeling
You hit the knife and made me fall
You should've told me you're leaving

Now torn apart, with a broken heart
I'm left alone and dying

I press rewind and find
I'm ejected
This thing called love doesn't play
any more
Erased out of my mind
I'm ejected
Please stop and give me what we
had before

Don't wanna be ejected
Don't wanna be ejected....

I press rewind and I find I'm ejected...
