

# Hanna Pakarinen, It Ain't Me

Who do you think you are  
And tell me who d'you take me for  
You're making rules up as we go  
Last call, I'm outta here  
My magic trick - I disappear  
Just had enough of laying low  
You can't bring me down  
You can't take me out  
No matter what you do to me I can take it  
You can give me hell but you know I'll make it  
Breaking free  
I will make you see  
One of us will come crashing down and baby it ain't me  
It ain't gonna be me  
You're such a superstar  
You really are your biggest fan  
I'll crush the dream you're living in  
Your game is over now  
Guess it's alright for you to lose  
You just can't stand to see me win  
You can't bring me down...  
It ain't gonna be me  
It ain't gonna be me  
It ain't gonna be me  
You're the one  
I can do without  
You say you're feeling bad but I never made you  
Couldn't make me love so you made me hate you  
Breaking free  
I will make you see  
One of us will crashing down and baby it ain't me  
You can't bring me down...
