

# Hannah Fury, Idaho

What if the sky in Idaho is black and dark?  
What if the sun in Idaho doesn't set at all?  
And what if I loved you with all of my heart?  
And what if my love wasn't good enough?  
What if the sky in Idaho is filled with clouds?  
What if the sun in Idaho has burned out?  
There'd be miles and miles behind us  
We'd look back at the miles and miles we'd come  
Don't tell me all those miles were for nothing  
Don't tell me all of those miles were for nothing  
What if the sky in Idaho is black and dark?  
What if the sun in Idaho doesn't set at all?  
And what if I loved you with all of my heart?  
And what if my love wasn't good enough?  
There'd be miles and miles behind us  
We'd look back at the miles and miles we'd come  
Don't tell me all those miles were for nothing  
Don't tell me all of those miles were for nothing  
With your arms around me, I think I can do this  
With your help, I think that I can do this  
Help me do this  
Help me help you do this  
Tell me all those miles were for something
