

# Hannah Fury, Never Look Back

You can have the brightest star  
I'm a girl who wishes on scars  
You must know that love can fade  
Don't look back during the parade  
So I love like they do under the sea  
And I pull him much too close to me  
Yes, I know that love can fade  
But I never look back during the parade  
You can have the light of the moon  
I prefer to exit through wounds  
You must know that life will fade  
Don't look back during the parade  
So I live like they do under the sea  
And I pull him even closer to me  
Yes, I know that life will fade  
So I never look back during the parade  
No, I never look back during the parade
