

Hannah, Good Feeling

You got to hold on as day fades into night
Cause music makes me feel alive
Don't worry about the future
Live the here and the now
When the music comes together
Out of chaos comes the sound

It gives a good feeling
Got to have it every day
Life has a whole new meaning
Cause music never goes away

It gives a good feeling
It gives a good feeling

In your heart you found a better place
Let it go and hear your inner faith
If you lose a thousand battles
But you win the fight with in
When you feet don't touch the ground
Just let the light shine in

It gives a good feeling
Got to have it every day
Life has a whole new meaning
Cause music never goes away

It gives a good feeling
Got to have it every day
Life has a whole new meaning
Cause music never goes away

It gives a good feeling

Can you feel it in the air
Can feel it in the air /5x

It gives a good feeling
Got to have it every day
Life has a whole new meaning
Cause music never goes away

It gives a good feeling
Got to have it every day
Life has a whole new meaning
Cause music never goes away

It gives a good feeling
