Hanoi Rocks, I Love You

Well I love you, I really do, And baby when I look at you
I know love is true, You know about my past
You know my habit, You know that love can't last
Until we've had it
I badly need it
You know about my past, You know my habit
You know that love can't last, Until we've had it
Well I love you, well I love you, Well I love you, well I love you
I love you
