

Hanover Saints, Ignition

Look in the face of frustration
Flip of the switch of the faith ignition
To bind me up
I beginning to see your filthy hands
I one to admit, Ie taken for granted
Taken a leap and regret where Ie landed
To bind me up
I want a healing hand

Ignition, Ignition, I don wanna live my life in contradiction
Ignition, Ignition, I don wanna live my life this way

Make a stand, take a position
On how you feel about the situation
This might mean you gotta change the way you live
Man I have lost friends for what I believe
But my heart yearns for integrity
This is the fight I am gonna win

Sometimes we talk too much and don allow change
