

# Hanover Saints, Ignition

Look in the face of frustration  
Flip of the switch of the faith ignition  
To bind me up  
I beginning to see your filthy hands  
I one to admit, Ie taken for granted  
Taken a leap and regret where Ie landed  
To bind me up  
I want a healing hand

Ignition, Ignition, I don wanna live my life in contradiction  
Ignition, Ignition, I don wanna live my life this way

Make a stand, take a position  
On how you feel about the situation  
This might mean you gotta change the way you live  
Man I have lost friends for what I believe  
But my heart yearns for integrity  
This is the fight I am gonna win

Sometimes we talk too much and don allow change
