

Hanover Saints, Market Street And Needles

Market street and needles, now floating in the system, looked me in the eye ,you can't even miss it
The clinic the clinic increased methadone,5 percent rehabbed you wouldn't even know
That the problem with being seen is not being heard ,now you are a statistic amongst the hurt
Now hear this now hear this, I know what makes God sick

Market street and needles, started out as fun ,me vs. me against everyone
Market St. and needles, too much time spent on the nod, me vs. me against everyone

Man I don't wanna go it alone, but the problem with that is I never find home
I haven't seen my parent's in years too embarrassed don't wanna put em in tears
That the problem with being seen is not being heard, now you re a statistic amongst the hurt
Now hear this now hear this, I know what makes God sick
