

Hanover Saints, When the Truth Rings Out

Gone through life asking why I am here,
looking for a quick fix solution that never adhered
Went through life fighting to be heard,
no peace in this world found anywhere, man and it hurts

Jesus I surrender all, take my empty life and make it whole

Man I tried everything underneath the sun,
sex drugs rock n roll when the years pass it just done
Just fight fight fighting for my life,
I wanna rest under heavenly wings tonight

When the truth rings out
