

Hanson, At Christmas

The snow's falling down as you step out of your car
Presents in your arms and you've traveled far
Someone opens the door with a smile on their face
And you know you've come to the right place

Family nestled by the fire
Christmas hopes to inspire
Loved ones by your side
You know you'll kiss your babies goodnight

Chorus
At Christmas, Christmas
No matter who you are, how far you've come
This is where you belong
At Christmas

Memories 'round the Christmas tree
Are the sweetest ones that remain with me
It's a comfort deep inside
That you can stop the race of time
To know that Christmas will always be

Family nestled by the fire
A Christmas hope will be inspired
Loved ones by your side
You know you'll kiss your baby goodnight

Repeat chorus

Can't you feel it changin'
Sense the anticipation
You can you tell we're almost there
Precious time we're takin'
Memories we're makin'
There's a Christmas in the air

This is what Christmas means to me
Being together with your family
And the wise men who followed that star
To where our baby Jesus lay

Family nestled all around
Baby Jesus asleep so sound
His star shined so bright
On that very first holy night

Repeat chorus

Christmas, at Christmas
This is where you belong
At Christmas
Who you are, how far you've come
This is where you belong...
