

# Hanson, Go

For all the love we've made  
Just one thing stays the same  
The lamp gets dusty  
The pipes get rusty  
But I don't wanna wash my hands clean

Well you say you love me too  
Then why won't you go through  
With the nightly kisses  
With the hits and the misses  
Well if you can make it on your own

Then go if you wanna go  
But stay if you want to know the way  
Through the mess we've made  
Or lie in the bed you know or go

I heard your moving van  
But I didn't take a stand  
You can't leave with 'em  
You can't live without 'em  
I never thought I'd want to let you

Go if you wanna go  
But stay if you want to know the way  
Through the mess we've made  
And lie in the bed you know or go, go!  
Or go

For all the love we've made  
Just one thing stays the same  
The lamp gets dusty  
The pipes get rusty  
But I don't wanna wash my hands clean

(Then go if you wanna go) Well you say you love me too  
(But stay if you wanna know the way ) Then why won't you go through  
(Through the mess we've made) With the nightly kisses  
(Or lie in the bed you know or go) With the hits and the misses  
Well if you can make it on your own then go
