Happy Hardcore, Tears In The Rain

I remember when the skies were blue.
All I wanted was to be with you.
Now the days are dark and I'm alone.
Truly love the place I call my home ...
(Chorus)
Hold me now, in your arms, the love I lost you never found.
I close my eyes and think of you. Alone again. Tears in the rain.

The day you stole my heart it felt so true.
When you threw it back it broke in two.
Until the storm inside me fades away.
Ill be waiting for a brighter day ...
close my eyes and think of you. Alone again. Tears in the rain. (x2)

Oh-oh babe!
Oooh - yeah!
Ooooh - oh- oohoh...

I remember when the skies were blue.
All I wanted was to be with you ...

Hold me now, in your arms, the love I lost you never found.
I close my eyes and think of you. Alone again. Tears in the rain. (x2)
