

# Happy Mondays, Grandbag's Funeral

Bring all the family  
Take all the family  
Bring all the family  
See all the family  
Bring all the family out to the holiday  
While we're all still around  
Show you what the cats been doing, and how he gets around  
You can't wake him, he's not sleeping  
He never comes down  
Bring all the family out to the holiday  
While we're all still in town  
Show you what the cats been doing, and how he gets around  
Lady skin up, lady skin up  
Now that we live together we both get fucked up  
Bring all the family  
Out to the funeral  
Bring all the family  
Out to the funeral  
It's only grandbag that died  
He really couldn't see what you're doing  
And all his family were white  
Lady skin up, lady roll up  
Now that we live together we both get good luck  
Bring all the family  
Take all the family  
Bring all the family  
See all the family
