

Hard-Fi, Stars of CCTV

Every move that I make
Gets recorded to tape
So somebody up there
Can keep me safe
I'm going out tonight
I'll get my hair just right
I'm always looking good
For my spot light
Stick em up
Give me the money
A winning smile up to the gallery
Gonna get my face on the six o'clock news
We're the stars of CCTV
Making movies out on the street
We're the stars of CCTV
Can't you see the camera loves me
On every corner every street
Down every underpass you'll see
Somebody stealing the show
Somebody looking like me
I'll see you're out tonight
We'll strike a pose just right
We're always looking good
For the spot light
We turn it on
And so effortlessly
We fill the screen
Can't help but notice me
Gonna get my face on the six o'clock news
We're the stars of CCTV
Making movies out on the street
Flashing blue lights, camera action
Once in my life main attraction
We're the stars of CCTV
Can't you see the camera loves me
We're the stars of CCTV
Making movies out on the street
Flashing blue lights, camera action
Once in my life main attraction
We're the stars of CCTV
Can't you see the camera loves me
