

# Hard Rain, Lightnin' Strikes

I've been standing 'cross the street 'most every night  
Trying to keep my eye on you  
I've been waiting but it seems you never come  
I never get to you

I need a chance 'cause there's a lot that I could say  
And there's things that I'd like to do  
Most of all I want to take you away  
I've gotta get to you some way

Can't you see the lightning strike  
Run like wild horses  
May never be another night like this  
Well, you can't stand up and fight  
Against those strange forces  
It's just a thing you can't afford to miss

There's people telling me I'm crazy, they don't know  
Shouldn't trust a word you say  
Your excuse is they're just lies, you're having fun  
Why don't I stay away?

Maybe they're right but I don't feel it in my heart  
You took it out of my control  
I've fallen in but I don't know where I should start  
I'm in a minefield, cold and dark

There goes another crazy day  
Keep your alibis and forever  
Dream your life away  
Jump back into your chevrolet  
Never mind the change in the weather  
It's a happy hour all day

When it cuts you like a knife  
So deep it's hurting  
But gets you going like a deadly kiss  
Could be anything you want  
While the world's turning  
You never know it till the bullet hits
