

# Hard Rain, Lookin' For A Way

In your room, you're surrounded tonight  
Lights down low and the music so loud  
You've closed your eyes, it takes you from the crowd

Turn around, it don't look pretty  
You saw the news today  
This world is short on pity  
A million miles away

You're looking for a way  
Your mama don't like that music playing  
Nobody likes those words you're saying  
You're looking for a way  
You're down on your knees again, start praying  
Waiting for another day

Far away, to a place of no time  
Like a dream where there'll be no today  
No one cries and tomorrow's a word people say

Turn around, it don't look pretty  
You saw the news today  
This world is short on pity  
A million miles away

You're looking for a way  
Your mama don't like that music playing  
Nobody likes those words you're saying  
You're looking for a way  
You're down on your knees again, start praying  
Tell me what you're going to say?

Turn around, it don't look pretty  
You saw the news today  
This world is short on pity  
A million miles away

You're looking for a way  
Your mama don't like that music playing  
Nobody likes those words you're saying  
You're looking for a way  
You're down on your knees again, start praying  
Waiting for another day
