

Hardcore Superstar, Dancing In The Rain

When the day turns into night
And the world is sound asleep
That's when you take me higher
And the secrets that we keep
You try to bring me sunshine
But you leave me feeling cold
I can't wait forever or put my life on hold
I can't wait until you stop your everlasting games
You don't know cuz you've never seen me dancing in the rain
If you really wait too long
But you won't go until you've seen me dancing in the rain
Dance in the rain, we'll be dancing in the rain
If you close your eyes and then you hope to find
In the distant dawns of your mind
And no matter what it's just the same
When you see me dancing in the rain
If you want me to hold on
And make your life complete
Make me feel you need me
And everytime we meet
Set my heart on fire
Then you let me down again
That's why you'll always find me
Dancing in the rain
I can't wait until you stop your everlasting games
You don't know cuz you've never seen me dancing in the rain
Dance in the rain, we'll be dancing in the rain
