

# Hardcore Superstar, Honey Tongue

Honey, ah ah yeah  
Honey, oh oh yeaah

Alright,

My babe's got a temper but still she wants to dance  
I'm not in the mood and still not ready for romance  
She said - Come along and dance to this song  
Just don't take it too far

I said you must have dreamt  
These words are heaven sent  
And here she comes again  
She's my honey tongue

Honey  
I just made out with you  
You're such a, such a honey  
Who loves to see me dance

Alright

Idon't need any attention, I don't want your misery  
All I am is satisfaction that's my guarantee  
She said - please, please I behave like you wish  
Just don't take it too far

I said you must have dreamt  
These words are heaven sent  
And here she comes again  
She's my honey tongue  
She's my honey tongue

Honey  
I just made out with you  
You're such a, such a honey  
Who loves to see me dance
