

# Hardline, Hold Me Down

Hello I've come to follow  
I'll crawl into your web  
It's your words I'll hear and swallow  
It's your voice I'll need and beg  
There's always always ways you say

[Refrain:]  
But you hold me down  
I didn't see it coming  
Losing ground  
Feel it all around you  
Hold me down  
Every way I turn it's  
Holding me down  
Hold me down  
Ease it in the morning  
Losing ground  
Can't you hear I'm falling  
Hold me down  
Every way I turn you  
Hold me down

Hello I've come to follow  
I'll slip inside time  
I need your voice inside me  
I fear you now you're mine  
There's always always ways you say

[Refrain]

What you trying to do to me  
What you trying to make me feel

Can you feel...
