

# Hardline, In The Hands Of Time

Living every moment holding on to a dream  
Staring at an empty page will it come to me  
And I wonder will the light ever shine on me  
If it's a mountain I must climb then that's the way it must be

Day after day like a lifetime away I keep holding on  
And night after night out of reach, out of sight from it all  
Day after day I won't walk away from this dream of mine  
It's in The Hands of Time

Living every moment with a dream burning bright  
Never stop reaching when the dream shines its light  
Well I take it for granted when the trying's all said and done  
Does the pain of remember fade when dreams are won

Day after day fight the storm's shade of gray and keep holding on  
Night after night let hope be your light on your way  
Day after day I won't walk away from this dream of mine  
It's in The Hands of Time

Day after day like a lifetime away keep holding on  
Night after night let hope be your light on your way  
Day after day I won't walk away from this dream of mine  
It's in The Hands of Time
