## Harem Scarem, Climb Tthe gate

| Born so we could lay In | a burning bed of rusted | nails Now it's my cause | to stay awake Will human |
|-------------------------|-------------------------|-------------------------|--------------------------|
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
|                         |                         |                         |                          |
