

Harem Scarem, Lying

I'm the king of all pretenders
The end all be all of fakes
I prey on the mindless
And I like it

Your defenses all surrender
My senses all awake
I kill 'em with kindness
And they buy it

Now I'm not one to seek redemption
The truth will set you free
Is all a mild deception
And you better believe
That I'm lying
Lying
Lie to everyone everyday

The bitter pill of ages
You swallow everyday
If feels so timeless
Don't fight it

Now I give you inhibitions
Take your innocence away
Without even trying
'Cause I can
