

Harem Scarem, No Justice

Freedom burns forever in the holy sun
It leads us into a battle that's never won

Whatever I take
Or whatever I give
Doesn't seem to matter anymore
When there's no

Justice in the world
No justice in the world
You feed the fire when you say it's all over
No justice in the world
When you realize that the devil's got your number

It's your decision
To walk the mile when the road is long
It's like religion wasting our lives on a
Worthless cause
Whatever I take
Or whatever I give
Doesn't seem to matter anymore
When there's no

When will freedom shine for us
No, it ain't over, no
