

Harem Scarem, No Justice (Live)

(Hess/Lesperance)

Freedom burns forever in the holy sun
It leads us into a battle that's never won
Whatever I take

Or whatever I give
Doesn't seem to matter anymore

When there's no

(Chorus) Justice in the world

No justice in the world

You feed the fire when you say it's all over

No justice in the world

When you realize that the devil's got your number

It's your decision

To walk the mile when the road is long

It's like religion wasting our lives on a

Worthless cause

Whatever I take

Or whatever I give

Doesn't seem to matter anymore

When there's no

(Chorus)

When will freedom shine for us

No, it ain't over,
