

# Harket Morten, Tell Me What You See

Sleep, my love, sleep  
Or look up at a sky  
Returning from its deep  
See the moon go down  
Watch the sun come 'round  
Tell me what you see  
Sleep, my love, sleep  
Yeah, look into a world  
You can no longer reach  
Time's a one-way track  
There's no direction back  
But when you're dreaming  
Tell me what you see  
Sleep, my love, sleep  
Like you slept with me  
When the world was a dream  
That we believed  
It was near  
It was far  
It answered to the stars  
No one's ever been that close to me  
What did you see  
Tell me what you see
