

Harlan Howard, Baby Don't Believe Him

A guy named Joe's been coming round showin' my baby the lights of town
It fills my heart with misery so see his arms where mine should be
Oh baby don't believe him he's been lyin' baby don't believe him you'll be cryin'
Baby if you'll go away what will I do
Baby don't believe him why don't you leave him come back to a heart that's true
[flute]
Fancy clothes and shiny cars are you as happy as you think you are
Will all your dreams end up the same as other girls who played his game
Oh baby don't believe him...
[flute]
I watched the long night turned to dawn my hopes and dreams are almost gone
Your wedding should be starting now I guess you think he'll keep his vow
Oh baby don't believe him...
